The Crypto Network

Refund Policy

RJ INTERNATIONAL, LLC DBA The Crypto Network offers our customers a full refund if they are not able to access the club after processing their payment.

All Club activities are handled inside the official Discord Community Application.

<https://discord.gg/thecryptonetwork>

We provide an automatic user experience to thousands of our customers to be given their access to the club & be granted access right away.

As long as you are able to provide your email and transaction ID in our automated general-support system your rank will be delivered instantly.

All services are Digital and are delivered instantly based on the buyer being able to follow the instructions correctly prompted.

If a user fails to provide their accurate information in our automated system, then a rank will not be

given, and will naturally run into error.

However, our team will continue to provide support where we can.

Over 5,000+ users have used our automated system and have been delivered their Digital Service instantly, so if you are running into an issue, we advise you double check your email & transaction ID.

Prior to any payment processing, users are forced and obligated to read step by step instructions via [how-to-join-vip](#)

We try our very best here at RJ INTERNATIONAL, LLC DBA The Crypto Network to make sure users are satisfied.

If you find yourself struggling to gain access to the VIP Club after paying, we offer full customer support via [general-support](#) or you may email thecryptonetworkio@gmail.com for last resort.

However, if you are still unable to successfully receive access to the Club, you may open a dispute via our PayPal Resolution Center, and we will offer you a Full Refund if you continue to struggle with your user experience and still cannot access the Club.

Once the service of the VIP Club has been provided and you have been given access, that is when our community does not offer any refund from thereafter.
